

Scripture on Scripture

— THINGS TO KNOW ABOUT YOUR BIBLE —

Biblical Authority:

Everything we do, say, think, and teach is informed by and subject to the _____.

Five things to know about your Bible:

Your Bible is _____. Your Bible is _____.
Your Bible is _____. Your Bible is _____.
Your Bible is _____.

The Bible is True

The Bible always tells the truth about _____ it talks about.

Inerrancy Defined: The inerrancy of Scripture means that Scripture in the original manuscripts does not affirm anything that is _____.

1. The Bible can be inerrant and still speak in _____.
2. The Bible can be inerrant and still be _____.
3. The Bible can be inerrant and still reference what is _____.
4. The Bible can be inerrant and still contain _____ (but these can be resolved).

Infallibility versus Inerrancy

Infallibility Defined: The purpose of Scripture is to teach us in areas that concern “_____” only. It is possible that the Scripture makes false statements in other areas, such as historical or scientific facts.

Problems with Infallibility:

1. The Bible itself doesn't _____ on the kinds of subjects to which it speaks truthfully.
2. Infallibility mistakes the _____ purpose of Scripture for the _____ purpose of Scripture.

- When you encounter seeming contradictions in the Bible, _____ that they can be resolved.
- You can _____ not only in the minor details of Bible, but also in its major doctrines.
